ABOUT US
WHO WE ARE

SAXE was born through our founders' personal experiences going through countless unsatisfactory processes of engaging "advisors" on cases ranging from a simple bank account opening to company formation. By establishing their own practice, they set out with a mission to create a safe-haven for the modern entrepreneur.

Pairing cutting-edge solutions with a razor-sharp business acumen of the team, the firm aims to provide a superior level of customer service and build strong, long lasting relationships with clients worldwide to form a new force in global consulting.
